## ROOFMAX PNEUMATIC ROOFING CUTTER

### PNEUMATIC ROOFING CUTTER

### ADVANTAGES

- Compact
- Lightweight
- Durable construction
- For extended use and less user fatigue
- 20,000 RPM, for superior cutting performance

### CHARACTERISTICS:

- **Tool-free adjustable exhaust** - allows you to direct the exhaust where you want it
- **Hex grip** - innovative micro texture for secure grip and maximum user comfort
- **On board hex key storage** - for convenient blade changes
- **Swivel quick connect** - for less hose tangles
- **Adjustable shoe** - for optimal cut control
- **Self-cleaning in-handle air filter** - keeps debris out of tool and extends tool life

### TECHNICAL DATA

- Minimum compressor pressure needed to operate the pneumatic roofing cutter : 90 PSI
- Weight: 1,000 g
- Length: 200 mm
- Noise: 80 dB
